

Dear Michael,

Congratulations to you and your team for constructing one of the most important and significant museum spaces in the 21st century. MCL was the right choice for this project and we are grateful to you for your outstanding leadership and commitment to its success. This project has proven to be one of the most demanding and precise types of construction we have ever participated in, and it could only be achieved by a construction firm like MCL. We value our relationship with you and your entire staff and we look forward to working with you again in the future.

A word about Mark Sullivan. Mark was very instrumental in the success of this project and we are extremely pleased with his leadership and management skills. His positive attitude and professional demeanor have been imperative to the complex nature of a project like EODIAH. Not only did Mark deftly navigate the multiple layers of the institutions involved (DMA, UTD, EODIAH, City of Dallas), he always maintained a steady hand and kept us all informed throughout the project.

And finally, a word about Eddie Dowden. Eddie was the right superintendent for this project. His attention to detail and his can-do attitude were invaluable to making this project a success. Eddie's experience, enthusiasm, dedication, and leadership have made the EODIAH DMA project a pleasure to be a part of. It takes a very special person to execute the construction of a space like EODIAH DMA, and Eddie Dowden is that special person.

Thank you for all your efforts on this project and congratulations on a job well done.

Best, Russ
